

Web Project #4

DUE: MONDAY, APRIL 26, 2010 4:00PM

80 points!

Create a website about your favorite musical group / singer.

YOU are the webdesigner for your band!

Think of your band & think of your audience as you create the best website ever for your group!

Using the graphic organizer for your website, create a site for your band/musical group consisting of the following:

1. Home Page: must be an attention getter so that readers continue perusing your website!
2. A minimum of 3 content pages
3. At least 1 of your content pages should have subpages
4. A source page

As the web designer, you must also...

- Content descriptions, such as lists or paragraphs, where appropriate
- Use appropriate color
- Include graphic elements
- Include links to other resources and/or additional information where appropriate
- Use only “good” web design characteristics
- Proper grammar and spelling

HINTS:

- Use the Google Site we created and shared in class as your starting point!
- Use only copyright-free material.
